

CSE 556 Internetworking Fall Semester 2002

Quiz No. 5

November 27, 2002

Time Allowed: 5 Minutes

Name: _____

Total: 40 Points (10 Points each)

State whether the given statement is TRUE or FALSE

S. No.	Statement	Answer
1.	RIP Version 2 is an integrated routing protocol.	
2.	Split-horizon with poisoned reverse eliminates all routing loops in a distance vector routing protocol.	
3.	In general, link state routing protocols re-converge faster after a topology change in the internetwork.	
4.	Administrative distance of OSPF is higher than the administrative distance of RIP.
